

Position: Environmental Scientist

Your mission

The Environmental Scientist will be a sustainability generalist, capable of completing carbon feasibility studies, carbon and environmental foot-printing, carbon modelling, carbon registry applications and management plans, environmental certifications, farm environmental plans, land use assessments, resource consents and other sustainability services. Affinity with iwi would be an advantage, and some international travel may be required.

Please note all our staff are expected to be vaccinated against COVID-19 and to keep their vaccination current. You must have the right to live and work in New Zealand.

Main tasks and responsibilities

- Provide professional sustainable management advice and services
- Work efficiently in the field to promote our services profile and provide timely independent advice on sustainable development in the town and country
- Prepare carbon assessments, feasibility and management reports for clients in compliance and voluntary carbon markets
- Assist clients to prepare applications for entry of Post-1989 forests into the NZETS
- Prepare farm environmental plans, environmental assessments, audits and certification reports for various industries
- Train and mentor assigned environmental staff
- Assist other staff to include sustainability-related information in their reports
- Represent GreenXperts as an environmental liaison person in national and international markets

Your profile

- Degree in environmental science, engineering or related field
- 2-10 years' experience in environmental services industry
- Familiarity with mapping tools such as Arc GIS Pro
- Familiarity with NZETS requirements for Pre-1990 and Post-1989 forestry, and preferably also with the structure and operation of voluntary carbon markets
- Attention to detail and good problem-solving skills
- Excellent written and verbal communication
- Enthusiastic in working with existing and potential new clients and project partners
- Strong customer service skills, affinity with iwi an advantage
- Professional discretion and efficiency
- Well-developed time management skills
- Strong organisational skills
- Physically fit
- Well presented at all times when interacting with any person during company business

What We Offer

- Starting contract package negotiable hourly rate, plus telephone expenses
- Provision of Microsoft 365 license
- Flexible Working hours 16-40+ hours per week, some in international time zones
- Expenses and travel allowance, field equipment and safety gear
- Payment of professional organisation membership fees
- Compulsory Professional Development Programme and mentoring
- Collegial working environment
- An opportunity to work in a 21st century company dedicated to secure sustainability
